A table is much more than the sum of its parts. It is a meeting place where families come together, old friends catch up and new ones are made.

We understand this. Our modern and contemporary furniture is designed with your lifestyle in mind. Simple, elegant and beautifully crafted pieces that speak for themselves in a timeless, understated manner.

Product Information

- Wood by its nature is a natural product and it will inherently vary in structure, colour and grain. Part of the attraction of wooden furniture is that no two pieces of veneer or solid timber are the same and consequently slight colour variations may occur from piece to piece, particularly if they are ordered at different times. Occasional dark spots called 'sugar marks' are naturally present in maple, beech and oak and should not therefore be viewed as blemishes but rather as a characteristic of the timber or veneer.
- All natural timber surfaces are prone to fading or discolouration if they are subject to direct or indirect sunlight. It is important therefore, that any ornaments, lamps, books etc. are moved periodically to avoid permanent shading.
- Excel is made using the finest materials and will require minimum care to maintain its excellent condition for many years. Surfaces have a hard wearing lacquer finish that confirms to BS 6250. While this finish is ideal for today's demanding lifestyle, it could be damaged by the use of detergents, aerosol waxes and polishes and it is therefore recommended that these are not used. Generally a regular dust combined with an occasional wipe with a soft damp cloth for more stubborn dirt, followed by a dry duster, is sufficient to keep your furniture looking great.
- All units conform to BS 7449 glass and safety requirements and BS 4533 electrical requirements. Care should be taken to disconnect the electrical supply before changing any light bulbs. Display units are automatically supplied with a transformer, cable and mains plug.
- Do not place hot dishes or plates onto any shelf, unit or table top. It is recommended that you use suitably insulated table mats which should be removed as soon as possible after use. Spilled liquids or food should be wiped off immediately and the surface thoroughly dried.
- Care should be taken to avoid overloading or placing undue strain on flap stays and hinges, drawer runners and door hinges. In addition, do not overload shelves, especially glass shelves, with heavy items.
- Excel is available in three finishes, Beech (B), Maple (M) and Oak (O). Please suffix the model number with B, M or O as appropriate and ensure the finish is clearly stated on the order.
- A selection of fabrics is available for dining chairs in the range, please refer to your local stockist.
- Floor standing units are supplied with levellers to aid alignment on uneven floors.
- It is the policy of John E. Coyle Ltd. to continuously improve the product range and therefore, we reserve the right to alter material or component specification and prices without prior notice. Whilst every care has been taken to ensure the accuracy of this catalogue, we cannot accept liability for mistakes as a result of limitations inherent in the photographic and printing process that may lead to variations in items such as the colours portrayed.
- All dimensions are approximate and are indicated in metric (centimetres) with the imperial equivalent in brackets (rounded up to the nearest quarter of an inch). Metric measurements should be used for accuracy. Measurements shown are external (Length x Depth x Height) with the internal dimensions noted where appropriate.
- Customer Service - If you require further information please contact our Customer Service desk during office hours. Tel: 00 353 47 82155 alternatively Email: customerservice@johnecoyle.ie or Fax: 00 353 47 84164 your enquiry.
