

## THE TECHNOLOGY OF THE BALANCED BED.

Innovative techniques and the very best, highly skilled craftsmen bring you a 3-tier Sleep System in our Posturepedic models, allowing each component of the bed to act in total harmony. Tier one, the Comfort System, integrates quality upholstery, carefully selected fillings and covers to suit your needs. The second tier, our Back Support System, uses a unique hinging action of patented offset springs, following the lines of your body while you sleep for complete support, edge-2-edge. The third and final tier is the Foundation System. The Sealy 'Torsion' sprung base prevents annoying mattress movement and improves the bed's life and performance. It's the perfect range of Comfort Systems, for your perfectly balanced bed.

SEALY.CO.UK

SEALY 2006  
COLLECTION

# THE WORLDWIDE BED EXPERTS.

Sealy is the world's biggest bed manufacturer. We've been around for 100 years, and now 1 in every 10 beds sold in the world is a Sealy. What's more, consistently making the world's favourite beds means consistently making the world's most advanced sleep systems. That's why we use the most sophisticated bed testing facilities in the world and invest more in research and development than any other bed manufacturer.

These days, we are all much more aware of what we eat. The right amount of vitamins and minerals. A good mix of carbohydrates and protein. Not too much fat. Not too much salt. At least 5 portions of

fruit and vegetables a day. The key to a healthy life is maintaining a healthy balance.

It's about being good to your body and mind. OK. All well and good. But what we

often fail to think about is how we look after ourselves when we're

sleeping. That's when we need a healthy balance too.

## TO LIVE HEALTHY, YOU NEED TO SLEEP HEALTHY TOO.

We spend a third of our lives in bed. So making sure we get the best

quality sleep is vitally important. That's why Sealy beds have been

designed in co-operation with leading orthopaedic surgeons to ensure

they give the right support to the body exactly where it's needed most.

Support that can help alleviate pains, rest the heart, allow better circulation and

minimise tossing and turning. A good night's sleep can make you smarter, help you

look healthier and increase concentration. So sleep healthy. Sleep Sealy.

# ULTRA LUXE COLLECTION

For a better quality of living.

The more you look after yourself, the better your quality of life will be. And it doesn't get much better than the Sealy Posturepedic Ultra Luxe range. Luxurious knitted covers with Coolmax™ for a cool and comfortable night's sleep. Lavish layers of upholstery. The very best quality fittings. The most advanced technology. Edge-2-edge support giving even more sleeping area. Sealy 'Torsion' sprung bases that cushion the mattress. The richness of texture. The very feeling you get from these beds exudes quality. A better quality bed for a better quality of sleep.

ENCHANTMENT  
PILLOW LUXURY  
MILLIONAIRE  
CROWN JEWEL

# ENCHANTMENT

This is simply the most luxuriously comfortable bed in the Sealy Collection. The Enchantment offers an exceptional level of craftsmanship combined with the latest sleep technology incorporating a layer of Sealy's unique 'memory-foam' material and Coolmax™ knitted fabric to keep you cool and comfortable every night.

The innovative micro-quilt box 'pillow top' mattress benefits from generous layers of upholstery to enhance the sleep experience. Sealy's unique 'PostureTech Ultra Luxe' spring unit provides correct underlying body support further enhanced by a 'Torsion' sprung base. This 'non-turn' mattress only requires rotating from end to end. Shown here with four large drawers (Type AA).

*Also available without drawers.*

For added convenience this 'non-turn' mattress only requires rotating from end to end. Support is provided by the 'PostureTech Ultra Luxe' mattress spring unit and Sealy's 'Torsion' sprung base. Shown here with two small and two large drawers (Type BA).

*Also available without drawers.*

# PILLOW LUXURY

New for 2006, this innovative micro-quilt 'pillow top' mattress has a luxurious surface feel achieved through its lavish layers of quality upholstery with Coolmax™ knitted fabric to keep you cool and comfortable at all times.

As always, Millionaire is set to remain as Sealy's best ever selling bed. Additional support is provided by Sealy's 'PostureTech Ultra Luxe' mattress spring system and 'Torsion' sprung base. Shown here with two small and two large drawers (Type BA).

*Also available without drawers.*

## MILLIONAIRE

This micro-quilted 'non-turn' mattress benefits from Sealy's unique foam encapsulation which completely envelops the spring unit providing added comfort and support right up to the edge of the mattress. Millionaire now also features Coolmax™ knitted fabric which helps dissipate heat and moisture more effectively.

## CROWN JEWEL

For those who prefer a really firm feel, this micro-quilted model benefits from the addition of Edge Guard, a high density foam strip placed inside the edge of the spring unit to give additional extra firm edge-2-edge support.

With generous layers of upholstery, the unique 'PostureTech Ultra Luxe' mattress spring system and 'Torsion' sprung base combine to give a truly great night's sleep. This is even further enhanced by the addition of a Coolmax™ knitted fabric for better temperature and moisture control. Shown here with two large drawers. (Type DA).

*Also available without drawers.*

IMAGES

LATEX SUPPORT

SERENE

ORTHO COMFORT

There are all sorts of ways to revitalise your body and mind. Regular exercise. Maybe walking the dog. Walking to work instead of taking the car. There's always the gym.

But simply combine a healthy lifestyle with a Posturepedic Ultra bed and you'll benefit from the revitalisation you've always dreamed of. Opulent upholstery. Copious amounts of comfort. In fact, this isn't just comfort. It's ultra comfort.

# POSTUREPEDIC ULTRA COLLECTION

The support you need for a revitalising sleep.

# IMAGES

This innovative mattress incorporates a generous layer of Sealy's unique 'memory-foam' material which moulds to the shape of the sleeper's body to provide correct support and spinal alignment.

## LATEX SUPPORT

This 'non-turn' micro-tuft mattress has generous layers of luxurious upholstery, including latex, and for added convenience, only requires rotating from end to end.

With the addition of the 'PostureTech Ultra' mattress spring system and 'Torsion' sprung base, Images truly combines two unique sleep technologies together for a comfortable night's sleep. For added convenience, the 'non-turn' micro-quilted mattress only requires rotating from end to end. Shown here with two small and two large drawers (Type BA).  
*Also available without drawers.*

Support is provided by the 'PostureTech Ultra' spring system in the mattress and 'Torsion' sprung base. Shown here with two large drawers (Type DA).  
*Also available without drawers.*

# ORTHO COMFORT

This traditional hand-tufted mattress is the firmest in the Ultra range, and sports a fashionable high quality damask cover. Proper underlying support is enhanced with Sealy's unique 'Torsion' sprung base and 'PostureTech Ultra' spring unit.

# SERENE

This brand new addition to the Collection in 2006 features seven layers of quality upholstery, for, as its name suggests, a great night's sleep night after night.

Supported by the 'PostureTech Ultra' mattress spring unit and 'Torsion' sprung base, this micro-quilted mattress has a 'medium' comfort feel. Shown here with four large drawers (Type AA).

*Also available without drawers.*

'Non-turn', Ortho Comfort has the extra convenience of only requiring rotating from end to end. Shown with two small drawers and one large end drawer (Type BC).

*Also available without drawers.*

BACKCARE SUPPORT  
ROULETTE  
BONANZA

# POSTUREPEDIC

The science of a healthy sleep.

The way you carry yourself each day is vital in ensuring your joints and muscles work in perfect harmony. And we at Sealy know that correct sleeping posture is equally as vital. That's why we developed the Posturepedic Collection. These beds come from the world pioneer in terms of comfort and support standards. Combine this with a choice of upholstery levels you're most comfortable with, and the result is a total sleeping unit with unrivalled levels of support, exactly where you need it most.

## BACKCARE SUPPORT

Exceptional value is the only way to describe Backcare Support. With today's busy lifestyles, this traditional hand-tufted mattress has the added benefit of extra generous layers of high-grade upholstery.

This combination gives a 'medium firm' feel to the 'Triple Offset' mattress spring unit. Further support is provided by Sealy's 'Torsion' sprung base. Shown here with two large drawers (Type DA).

*Also available without drawers.*

# BONANZA

This micro-quilted mattress has all the benefits that have made Posturepedic the world's favourite bed. For those demanding a bed that looks different with lower lines, Bonanza features stylish legs on castors.

The 'Triple Offset' springs with a unique hinging action give proper underlying support across the entire sleeping surface, from edge-2-edge.

# ROULETTE

Luxurious sleep at a very affordable price. The modern micro-quilted mattress has seven layers of surface upholstery cushioning the 'Triple Offset' mattress spring unit.

Sealy's unique 'Torsion' sprung base ensures total support. Shown here with one large end drawer (Type DC).

*Also available without drawers.*

Designed as a total sleeping unit, the mattress is supported by the shallow 'Torsion' sprung base with tempered torsion bars for longer life and exceptional support.

*Storage options not available.*

# LATEX

Pure comfort.

LATEX 100  
LATEX 50

The best things for looking after ourselves tend to occur naturally. Fresh fruit. Fresh vegetables. Plenty of water. Nature has the answer to so many of life's ailments. That's why we turned to nature for our latex range. This range of mattresses is made using 100% natural latex, which completely conforms to the body's curves, ensuring excellent support over every area of the bed's surface.

## LATEX 100

This luxurious model uses 100% natural latex to offer your body high quality rest every night and is hypo-allergenic for added peace of mind. The unique '5-zone' structure provides the sleeper with optimum comfort and increased support.

The high density support edge maximises the sleeping area whilst the choice of regular or firm options allow you to pick a surface feel that you are most comfortable with. For added convenience the 'non-turn' mattress only requires rotating from end to end. The divan base uses a sprung slat support system for a responsive, soft feel. The headboard designs come in a choice of fabric options and colourways. Shown here with matching Trio headboard in Chocolate Suede finish.

*Storage options available.*

## LATEX 50

The Latex 50 is an exceptional value for money bed. It uses latex to provide excellent comfort and support combining a generous top layer of 100% natural latex with Super Bultex™ foam.

The self-ventilating mattress comes with a modern cover in two comfort feels, regular or firm, is 'non-turn' and only requires rotating from end to end. For added peace of mind, the mattress is hypo-allergenic. The divan base uses a sprung slat support system to provide the right level of support with a responsive, soft feel. Shown here with matching Neptune headboard in Beige Bouclé finish and four large drawers (Type AA).

*Also available without drawers.*

# MATTRESSES

Keeping you on top of things.

We are all different. We're all different weights, sizes and shapes. That's why we have so many different mattresses, each designed to give you the exact comfort and support you need. From expertly engineered sprung mattresses to latex units that conform to the contours of your body, you'll find the perfect mattress for a perfect night's sleep. In fact, whatever your base, from a metal bedstead to a wooden frame, the ideal partner is a Sealy mattress.

## VISCO SUPPORT

- 'Non-turn' for convenience - only requires rotating from end to end.
- Unique Sealy 'Memory-foam' layer moulds to the body for correct support.
- Micro-quilted mattress with knitted fabric cover.
- 660 'PostureTech Ultra Luxe' springs in 150cm x 200cm models.

## ORTHO SUPREME

- The firmest Ultra Luxe mattress featuring Edge Guard, a high density foam strip placed inside the edge of the spring unit giving extra firm edge-2-edge support.
- Traditional hand-tufted mattress with luxury damask cover and generous layers of upholstery.
- 660 'PostureTech Ultra Luxe' springs in 150cm x 200cm models.

## BEDSTEAD DELUXE

- Unique Sealy foam encapsulated spring unit for added comfort and support right up to the very edge of the mattress.
- Made especially for bedsteads or fashion beds and is 'non-turn' for added convenience.
- Micro-quilted 'gentle feel' mattress with luxury damask cover and generous layers of upholstery.

## LATEX SUPERIOR

- 'Non-turn' for convenience - only requires rotating from end to end.
- Additional latex layer for unsurpassed comfort.
- 'Medium' feel micro-quilted mattress with seven layers of upholstery and luxurious damask cover.
- 620 'PostureTech Ultra' springs in 150cm x 200cm models.

## SUPERIOR (FIRM)

- Designed specifically for those who prefer a really 'firm' feel.
- Traditional hand-tufted mattress with six layers of luxurious upholstery and damask cover.
- 620 'PostureTech Ultra' springs in 150cm x 200cm models.

## SUPERIOR (REGULAR)

- A regular feel suitable for most sleeping requirements.
- Micro-quilted mattress with seven layers of upholstery and luxurious damask cover.
- 620 'PostureTech Ultra' springs in 150cm x 200cm models.

## BACKCARE (FIRM)

- 'Non-turn' for convenience - only requires rotating from end to end.
- Designed for those who prefer a 'firm' feel.
- Hand-tufted mattress with a quality damask cover and six layers of high grade upholstery.
- 391 'Triple Offset' springs in 150cm x 200cm models.

## BACKCARE (REGULAR)

- A regular feel suitable for most sleeping requirements.
- Micro-quilted mattress with a quality damask cover and six layers of high grade upholstery.
- 391 'Triple Offset' springs in 150cm x 200cm models.

## THE SEALY HEADBOARD COLLECTION.

The headboard collection features three stylish designs which are available in the following widths: 75cm, 90cm, 105cm, 120cm, 135cm, 150cm and 180cm. Each headboard is available at additional cost in a choice of two fabric options, Suede (in Chocolate or Natural) or Bouclé (in Beige only).

Neptune headboard in Chocolate Suede finish.

Trio headboard in Beige Bouclé finish.

Monaco headboard in Natural Suede finish.

# ADJUSTABLES

If you want luxury and added comfort literally at your fingertips, Sealy has a range of ultimate electronically adjustable versions. Built into each model is a quiet but powerful twin motor system that drives the five section adjustable frame to give the sleeper complete flexibility. Simply change your position with the easy to use handset. So, while your Sealy bed offers you unsurpassed comfort and support you can also adjust it to your most comfortable positions. The fashionable beech sprung slatted bed base is available in a choice of fabrics and features non-slip strips on the slats and adjustable tabs in the centre to adjust the tension and feel. Shown here with matching Monaco headboard in Natural Suede finish.

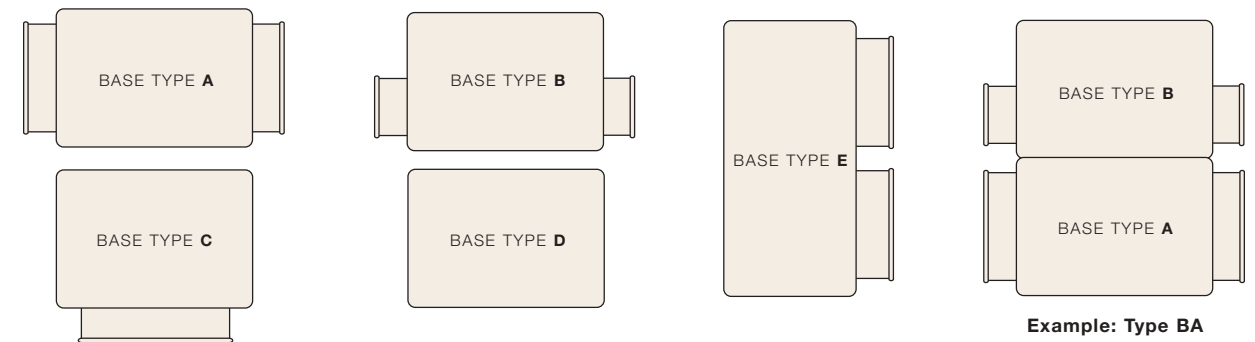

*Drawer options not available on adjustables.  
Available with both 'firm' and 'regular' Postureform mattresses*

# MULTI DRAWER OPTIONS

Multi-drawer options are available on a wide range of double and king-size beds (see specifications on pages 26 and 27). Because these models are produced as split bases i.e. two halves, any two of the following types A, B, C or D, shown below, can be combined to give a drawer option that suits your needs e.g. Type AA, Type DC, Type BC etc.

# SPLIT BASES

All Sealy models, with the exception of 75cm and 90cm width, are produced with split bases. This is particularly useful for delivery as the bases can be easily manoeuvred into position. For ease of assembly the two halves simply clip into place using Sealy's unique new locking system. This new system is easy to use, hidden from view and requires no tools to assemble.

# SEALY TERMINOLOGY, UNCOVERED.

**Coolmax™**  
Is a highly permeable knitted stretched fabric with an excellent heat regulating capacity which takes moisture and excess heat away from the body creating cool, dry and comfortable sleep every night.

**Edge Guard**  
A high density foam strip placed inside the edge of the mattress springs, prevents the mattress sagging and gives both longer life to the mattress as well as a firmer sleeping area.

**Edge-2-Edge**  
Unique to Sealy Posturepedic, the outer springs in the mattress are fastened to a firm steel rod running all around the perimeter. This means that the whole of the surface of the mattress can be used as a sleeping area, the sides do not bulge or sag like many beds and you are less likely to roll off.

**Foam Encapsulation**  
A foam casing enveloping the mattress springs, giving a luxurious feel to the whole sleeping area without any loss of support.

**Hand-Tufted**  
The traditional method of mattress upholstery, where all the fillings are tufted (stitched from the top of the mattress to the bottom) by hand, ensuring that they are securely attached to the mattress spring system.

**Memory Foam**  
A visco-elastic product, where the material moulds to the contours of the body. It is similar to latex in that no spring systems are used thereby relieving pressure and dispersing it. The product is available in different degrees of density for firmer and softer sleeping surfaces.

**Micro-Tuft**  
A method of upholstery achieved using a modern quilting machine to give the appearance of a hand-tufted mattress. This provides a luxurious finish to the surface of the mattress with even less indentation and offers a very soft feel to the sleeping surface.

**Micro-Quilt**  
A more contemporary method of securing the mattress fillings, where the top comfort layers are quilted together providing a smoother looking sleeping surface (less indented than traditional tufting).

**Natural Latex**  
A naturally produced hypo-allergenic rubber based product that is used instead of traditional spring systems. The product naturally moulds to the contours of the body and provides additional benefits in terms of pressure relief and durability. The product is available in different degrees of density for firmer and softer sleeping surfaces.

**Non-Turn**  
A mattress that, for added convenience and easier care, doesn't need to be turned over and merely requires rotating from end to end.

**Pillow Top**  
As the name implies, a deep layer of upholstery on top of the mattress creating an additional 'pillow style' layer. Used on 'non-turn' mattresses.

**PostureTech Spring System / Triple Offset Spring System**  
Sealy's unique mattress spring systems. 'Offset' coil design enables the springs to follow the line of the sleeper's body due to their unique independent hinging action.

**Slatted Bases**  
In place of sprung bases, slatted bases use wooden slat supports. These are of particular benefit with adjustable beds where flexibility is key.

**Torsion Base**  
The name for the unique Sealy spring system used in most Posturepedic bed bases. Sealy's sprung bases are 50% firmer than the average sprung base, improving support and extending mattress life by up to 25%.
