

# HAND MADE IN THE LAKE DISTRICT.

INTRODUCING THE POSTURE POCKET COLLECTION  
WITH THE UNIQUE UNICASE CONSTRUCTION.

Comfortable, luxurious and innovative, our new Posture Pocket collection offers everything you could ask for in a bed. Each spring is encased in its own fabric nested pocket, moving independently to perfectly follow the contours of your body. The resulting smooth, even surface ensures a good night's sleep, every night. Unique to Sealy, the Posture Pocket UniCase System and the Torsion sprung base ensure uncompromising support and comfort. The collection is handmade using traditional methods and materials, combined with the latest innovations in the science of sleep.

The world's favourite bed

## For a better quality of living.

Sealy is not just the world's biggest name in beds. We also spend more money on research and development than any other bed manufacturer. Our latest collection combines the results of this innovation with traditional methods and quality. Posture Pocket is one of the most luxurious collections Sealy has ever made, but comfort on its own is only part of the story.

The Sealy UniCase system actually encases the nested pocket springs to provide uncompromised support and comfort at every point across the mattress surface. You'll appreciate the difference as soon as you lie down, because the UniCase is a working part of the sleep system, engineered to work in unison with the pocket springs, responding to your weight with the correct amount of support.

By encasing the entire sleep surface, the mattress will retain a consistently firm seating edge around its entire perimeter, and by absorbing weight and pressure the comfort life of the mattress is greatly enhanced.

## Rheged

Tradition meets the latest advances in the Science of Sleep. The Rheged benefits from a hand-tufted mattress and five layers of luxurious filling. Uncompromised comfort and support is offered right across the mattress, thanks to Sealy's unique Posture Pocket UniCase System, which encases, protects and cushions. As a 'non-turn' mattress, it also has the convenience of only requiring rotation from end to end. The Rheged is ideal for both divans and bedsteads, and is guaranteed not to bulge or spread like normal pocket mattresses. Visual appeal is enhanced by the gold coloured fittings and a bumper bar. This stylish mattress offers a 'natural firm' feel.

## Multi drawer options

Multi-drawer options are available on Sealy Posture Pocket beds (see specification table). Because these models are produced as split bases i.e. two halves, any two of the following types A, B, C or D, shown below, can be combined to give a drawer option that suits your needs e.g. Type AA, Type DC, Type BC etc.

## Split bases

All Sealy models, with the exception of 90cm width, are produced with split bases. This is particularly useful for delivery as the bases can be easily manoeuvred into position. For ease of assembly the two halves simply clip into place using Sealy's unique new locking system. This new system is easy to use, hidden from view and requires no tools to assemble.
